Help Children with Autism using Applied Behavior Analysis as an In-Home Tutor

We are looking for individuals to provide in-home applied behavior analytic services to military families who have a child with autism. You will help implement educational programs to increase social, academic, and communication skills as well as treatments to manage problem behavior. In particular, you will assist in maintaining a high level of accurate program implementation and organize and maintain data collection to monitor on-going progress.

APPLICANT REQUIREMENTS:

1. Enrolled in 6 months of, or completed 2 years toward, a bachelor’s degree in psychology or related field.
2. Relevant experience working with children.
3. A high level of communication skills (e.g., articulate).
4. Accurate implementation of behavior-management and educational programs during training.
5. Exhibit general rapport-building skills (e.g., enthusiasm, smiles, ask questions, etc).
6. Ability to handle challenging clients (e.g., aggressive behavior).
7. Have own transportation and a valid driver’s license.
8. Successful background check, documentation of immunizations, and favorable reference checks.

If you are interested or have questions, please contact:
Dr. Kevin C. Luczynski at (402) 559-4056.

www.unmc.edu/mmi/casd.htm

If Hired:

• 40-hour training program taught by experts from the University of Nebraska Medical Center
• Training is conducted remotely using web-based technology

Pay Rate:

• Hourly rate of $10.30.
• The number of hours (approx. 20 to 35) depends on the number of families you serve.
Military Families: Receive Parent Training and Early Autism Intervention Services in Applied Behavior Analysis

We are looking for military families that would like to receive parent training in applied behavior analysis as well as receive on-going early intensive educational services for their child from experts at the University of Nebraska Medical Center. Our goal is expand access to highly effective services for military families who have a child with autism, regardless of their geographic location. We plan to achieve these goals by using the latest advances in web-based technologies and in-home camera systems.

FAMILY ELIGIBILITY:

1. Child meets the diagnostic criteria for an autism spectrum disorder.

2. Child’s chronological age is between 18 and 48 months.

3. Child’s nonverbal age is greater than 12 months.

4. Family is a member of the Autism Demonstration Project, which allows reimbursement for our services.

5. Family has internet access at home.

If you are interested or have questions, please contact:
Dr. Kevin C. Luczynski at (402) 559-4056.

If We Work Together:

- Parents will complete a 5 to 7 week training curriculum, during which they will:
  - Learn more about autism and strategies to promote skill acquisition and manage inappropriate behavior by viewing 8 multimedia presentations.
  - Participate in 5 to 6 structured role-plays guided by experts at the University of Nebraska Medical Center (UNMC).

- Parents will work with an in-home tutor who is trained in applied behavior analysis and supervised by expert clinicians at UNMC.

- Weekly consultation will be provided on delivering effective early educational programming for your child.
